THE SUMS, denominated in the above Account as the Produce of the Taxes for the years ending 5th January 1810 and 1811, are the Amount of the Produce of the Taxes chargeable in each year, as whatever part of the preceding year's Taxes may have been received in the subsequent year, is deducted from the Receipt of ſuch subsequent year, and placed to the Account of the year wherein it actually became due. The late period of the year when the additional 50 per Cent. on the Window Tax was imposed by Law, and the conſequent late period put in Collection, viz. Auguſt, is the reaſon why a greater portion of the Produce of the year 1810 remained Uncollected on 5th January 1811, than of the year 1809 on the 5th January 1810.
